About Me

Driven and ambitious frontend developer with a strong foundation in HTML, CSS, and JavaScript. Passionate about creating intuitive and visually appealing user experiences. Eager to learn and adapt to new technologies and frameworks. Seeking opportunities to contribute to innovative projects and grow as a professional in the dynamic world of frontend development.

Projects

• React : Chat app

- [Git Repository link:](#)
- [Host website](#)
- [Video Link:](#)

Tech Used:

- React , JavaScript, VScode, node.js, css , java, etc...
- In this app you can chat with any one live and reply team
- It is like same as whatsapp and same same telegram app.
- with the help of this app we can communicate.
- We can find a good themes

• React : Albums Collection

- [Git Repository link:](#)
- [Host website](#)
- [Video Link:](#)

Tech Used:

- React , JavaScript, VScode, node.js, etc.....
- In this app you can search any type of album and also save it details about that.
- you can rename any album and add more details about it.

• Frontend : Todolist

- [Git Repository link:](#)
- [Host website](#)
- [Video Link:](#)

Features :-

- A minimal design with HTML and CSS, it should look nice (no libraries, no frameworks).
- In this app text box at the top to add a todo item to the list.
- Add button: when a user clicks on the button, add that todo item to the list.
- A delete button to delete the todo item completely from the list.

Certification

- [Introduction to JAVA](#)
- [Data Structures in JAVA](#)
- [Front End](#)
- [Back End](#)
- [React](#)
